MADONNA'S FACIALIST IN RESIDENCE AT TERME DI SATURNIA SPA & GOLF RESORT

Michelle Peck to reveal secrets of A-list skin at Europe's finest wellness retreat

From 21 to 27 August Michelle Peck, renowned facialist to Hollywood icons including Madonna, Gwyneth Paltrow and Eva Longoria, will take up residence at Terme di Saturnia Spa & Golf Resort in the rolling Maremma hills of Tuscany to offer guests the benefit of her extraordinary expertise as the world's leading practitioner of the pioneering Intraceuticals Oxygen® Infusion treatment – the secret behind many stars' stellar skin.

Michelle's visit is the first of an ongoing collaboration with Terme di Saturnia, whereby guests will have a unique opportunity to learn the secrets of red carpet skin experience the exclusive Intraceuticals Oxygen® Infusion, the innovative treatment which uses hyperbaric oxygen to deliver hyaluronic acid, vitamins and antioxidants painlessly and naturally into the skin, without the use of needles or injections. The treatment deeply hydrates to leave the face and décolletage radiant and firm with visible lift and immediate toning.

Having worked behind the scenes at some of the world's most glamorous fashion catwalks and showbiz events from Cannes and Los Angeles to New York and Paris, Michelle's expertise and holistic, healthy philosophy of life makes for a natural partnership with Terme di Saturnia Spa & Golf Resort, itself a star of the hot spring world that embodies a culture of wellbeing founded on both the desire to escape and treat illness, and the will to rejuvenate and enjoy every second of life to the full.

...cont/

Michelle is considered the world's leading Intraceuticals practitioner, having pioneered its use for four years with A-list clients from Madonna to Justin Timberlake. Created in Australia in 2001, Intraceuticals derives from hyperbaric oxygen therapy – originally developed to treat a series of medical conditions.

Notes to editors

Located in Maremma, one of the most striking corners of Tuscany, the award-winning Terme di Saturnia Resort & Spa is centred around an ancient travertine stone building on the site of a rich, ancient thermal spring. Generations of bathers have enjoyed the health-giving properties of the waters, which gush from the spring at a rate of 800 litres per second at a constant temperature of 37° C. Impressive Roman baths lead from the elegant hotel to the warm spring, which feeds four swimming pools, a Jacuzzi, waterfalls, and waterways. The healing powers of the sulphuric spring water are used in luxurious, regenerative therapies and a range of tailored medical and fitness programmes and following recent extensive renovations, the spa offers state-of-the-art facilities in its 53 treatments rooms. An overriding philosophy of seeking harmony with the environment is reflected in the design of the 140 guest rooms and in the resort's newly-renovated 'green' 18-hole golf course, designed to fit seamlessly with its glorious natural surroundings. The All'Acquacotta restaurant offers fine Mediterranean dining, whilst the more informal Aqualuce serves Tuscan-inspired cuisine in an al-fresco setting. www.termedisaturnia.it
